LEMON-LIME 2231 - NATURAL

DESCRIPTION

A colourless to slight pale straw colour liquid with a distinctive sweet aromatic Lemon Lime aroma without the harshness typical of d-limonene.

Specific gravity at 25°C: 1.025 – 1.030

APPLICATION

This flavour is designed for beverage application especially carbonated soft drink in the direction of Seven-Up or Sprite. It is completely water soluble to give a clear sparkling beverage with good flavour stability.

RECOMMENDED DOSAGE

- Syrup : 0.5% in syrup for dilution 1 + 4
- Beverage : 0.1% in ready to drink
- Jelly / Dessert : 0.15% in ready product
- Ice-Lolly Syrup & Ice Sherbets : 0.15% + 0.1% Citric Acid + Sugar and set at 10-15°C

LEGAL STATUS

This flavour is extracted from natural lemon and lime oils with Propylene Glycol as solvent in order to obtain a natural flavour containing only the terpenesless oils of lemon and lime which are water soluble, leaving behind the insoluble d-limonene which causes instability by oxidation if retained in the flavour.

CLASSIFICATION

It is classified natural flavour in all countries.

STORAGE

Keep in a cool dry place away from direct sunlight. This product is stable for six months.

PACKING

- 25kg plastic drum
